

VOLUNTEER EVENT MANAGEMENT

Simplifies the way you organize and facilitate events.

Volunteer Event Management is the perfect tool to help you efficiently organize your volunteer events. With easy to use forms for your center, agencies, employees or volunteers, you can now leverage the Internet to match volunteers with projects available in your community and for your events.

WITH VOLUNTEER EVENT MANAGEMENT SYSTEM YOU CAN:

- Accept submissions for volunteer projects online
- Allow volunteers to register online for your event, optionally selecting a specific project
- Manage and report on volunteers groups and companies participating in your event
- Setup your online forms to capture exactly the data in which you are interested
- Keep an online history of all your volunteers, agencies, and projects
- Efficiently record hours volunteered

- Keep in touch with your volunteers and project coordinators online through email
- Quickly match volunteers, companies, and/or groups to projects that meet their interests
- Generate sophisticated online reports of your registered volunteers, agencies, and volunteer projects
- Download your online data into other popular applications like Microsoft Excel or Access
- Seamlessly integrate VEM into your existing web site
- Set up access codes to limit who can register for your event
- And much, much more ...

Volunteer Event Management is designed to automate the registration process for your events freeing your time to focus on the more important aspects of your events.

The Event Management module can be used by local United Ways, volunteer centers, corporations as well as universities—virtually any group who needs to organize and manage a large group of volunteers!
